Re: my first writ of certiorari (California S284033) mailed to you on 10 June 2024

Dear clerk,

In response to your letter dated September 10, 2025, requesting a supplemental appendix, please see the attached Supplemental Appendix 6, 7 and 8, with pages numbered commencing with 98. I request filing without seal.

The purpose of Appendix 6, 7 and 8 are to provide full information about the disability accommodation requested for essential medical treatment, absent which I would continue to be more injured by the court. The accommodation was never provided, either by the trial court, or by the appeal court, or by the California Supreme Court. All three courts consider this to be 'business as usual' without any regard to the fact of me being at the active medical treatment/hospitalization and serious injuries and severe psychological trauma that they intentionally cause to disabled litigants.

Appendix 7, in particular, shows that the appeal court will do absolutely nothing about stopping the injuries and discrimination by the trial court while it 'adjudicates' the correctness of the trial court's handling of a litigant's disability accommodation, while at the same time acknowledging that the litigant requires disability accommodation in the appeal court. This is a very serious problem, and a significant human rights violation that is uncorrectable.

I also request your careful attention: I still have not received any response or acknowledgment about my SECOND writ against California S284308, which you 'lost'. Please respond to my several letters about that writ.

Thank you.

Sincerely yours,

Julia Minkowski

APPENDIX 6

IN THE COURT OF APPEAL OF THE STATE OF CALIFORNIA SIXTH APPELLATE DISTRICT

H051475

On January 12, 2024, petitioner filed a disability accommodation request asking for an extension of time to approximately April 15, 2024 (“30 days . . . after . . . 14 March 2024”) to serve and file a reply to the preliminary opposition briefs. On January 25, 2024, this court partially granted the request by extending time until March 1, 2024.

On January 30, 2024, petitioner filed a disability accommodation request asking us to “[a]djust the previously granted ADA accommodation” by extending time to approximately April 15, 2024 (“30 days . . . after . . . 3/14/24”). This request for accommodation is denied as it would “fundamentally alter the nature of the service, program, or activity” of this court by unduly delaying the administration of justice. (Cal Rules of Court, rule 1.100(f)(3).)

Date: 02/22/2024

APPENDIX 7

Order in H051475

BY THE COURT:

On January 12, 2024, petitioner filed a disability accommodation request asking for an extension of time to serve and file a reply to the preliminary opposition briefs and for a stay of trial court proceedings.

The reply is currently due January 31, 2024, and the accommodation request is partially granted, in that petitioner now may serve and file the reply on or before March 1, 2024.

The request for a stay is denied under California Rules of Court, rule 1.100(f)(3), but this denial has no impact on the stay request made in the petition itself.

Date: 01/25/2024 Mary Greenwood P.J.

(Proof of required uninterrupted medical treatment is provided in the next appendix, as filed on January 12, 2024. The trial and appeal courts once again prevented my essential medical treatment causing predicted and serious injury, & increased treatment.

Appendix 7, in particular, shows that the appeal court will do absolutely nothing about stopping the injuries and discrimination by the trial court while it 'adjudicates' the correctness of the trial court's handling of a litigant's disability accommodation, while at the same time acknowledging that the litigant requires disability accommodation in the appeal court. This is a very serious problem, and a significant human rights violation that is uncorrectable.)

APPENDIX 8

Jan. 12, 2024 MC-410 Request for disability accommodation

MC-410 form Question 3: When and where do you need the accommodation?

CA Court of Appeal, Sixth District, beyond January 31st 2024

MC-410 Question 4: What accommodation do you need at the court?

Time extension to file a response to Nicole Myers 38 pages document and Family Court response, a stay of the family court proceedings until completion of my PHP hospitalization and IOP medical treatment and to stop my further injuries.

MC-410 Question 5: Why do you need this accommodation to assist you in court?

Julia's partial hospitalization and IOP intensive treatment is scheduled to be completed on 03/14/24. Until then being forced to litigate interferes with her medical treatment and causes more injury and need for more treatment. More information on this request is attached.

ATTACHMENT #1 TO MC-410

DECLARATION BY JULIA MINKOWSKI (case # H051475 in Sixth District Appeal court and 19FL004302 in Santa Clara County Family Court) This letter has been prepared with the assistance of my disability support person, an ADA advocate. I am updating the court on my current medical needs in view of Hon. Judge Greenwood's expectation for me to respond in 21 days.

My health treatment has been altered due to increased injuries. I was transferred onto more intensive PHP treatment from IOP treatment. I am attaching a detailed schedule and explanation of PHP setting.

PHP stands for Partial Hospitalization in a medical facility. Its main goal is to treat me while saving costs of overnight stay in hospital. Between 9am and 4pm I am undergoing an intensive treatment with prescribed modalities. During the evening hours I have to attend 12 steps support group meetings, attend social gatherings, engage in physical activity and to take care of my children. This is necessary for my recovery and healing. The PHP Handbook clearly specifies such participation¹.

¹ I attached a brochure about the PHP program

I will be also undergoing an intensive IOP (Intensive Outpatient Program) medical treatment at a medical facility in Sunnyvale, California. For this treatment to be effective, I must have complete stoppage of the stress of litigation that put me in IOP therapy. Due to my current health condition, I am advised that any legal stress at this time will cause additional injury.

However, the legal stress has not stopped but has increased, and it is deliberately inflicted.

In light of this, I respectfully request an accommodation to allow extra time for submitting my complete response to the appeal court. Specifically, at the current time, if my injury stops, **I estimate 30 days would be immensely helpful after completion of my current treatment schedule on 14 March 2024**, to ensure I can pick up the threads of my case and prepare my submission without further exacerbating my health condition.

Your understanding and support in providing this necessary accommodation under the Americans with Disabilities Act (ADA) would be greatly appreciated. It will enable me to participate effectively in the appellate process while adhering to my critical medical treatment schedule.

Attached is a letter from the medical facility confirming my treatment and its current duration. The duration of my

treatment has previously been extended because of continuing injuries in the course of legal proceedings.

Thank you for your consideration of this request.

I, Julia Minkowski, confirm that I have requested Ms. Hagan to state my requests in accordance with my wishes, and that the foregoing is a true and correct statement of what I want to convey. I certify under penalty of perjury under the laws of the state of California that the foregoing is true and correct.

Re: Support Letter for Ms. Julia Minkowski

TO WHOM IT MAY CONCERN:

Ms. Julia Minkowski has been under professional care at this clinic for treatment of conditions diagnosable under the DSM-V since February 1, 2023. Her mental impairment substantially limits several major life activities that involve tasks requiring concentration and/or communication.

At this time Ms. Minkowski is undergoing Partial Hospitalization Program due to severity of her symptoms (started Intensive Outpatient Program at The Meadows Outpatient Center on October 30, 2023 but her condition significantly deteriorated by December 12, 2023 so she was transferred to step-up PHP and should complete it by January 12, 2024 and return to IOP from January 13th through March 14th, 2024, pending further assessment).

At this time, she is still experiencing significant difficulties with daily tasks her medication **management was recently adjusted. Therefore, we deem her unable to work or participate in any legal proceedings, including producing or processing paperwork, as well as participate in any court hearings until March 15, 2024 (pending further assessment).**

MEDICAL REPORT FOR JULIA MINKOWSKI

I Bibi Das, MD hereby prepared this report for the California Superior Court, as it pertains to my patient, Julia Minkowski. Ms. Minkowski has been my patient since September 12, 2016.

Ms. Minkowski is a Caucasian female who is presently being treated by me. Ms. Minkowski suffers from severe cognitive symptoms of inattention and problems with [REDACTED]
[REDACTED]

[REDACTED]
[REDACTED] post-traumatic stress disorder due to legal abuse (Z65.3 - Problems related to other legal circumstances) and domestic abuse which prevents her from functioning normally.

It is my professional opinion that Ms. Minkowski cannot effectively participate in legal proceedings and requires the assistance of an attorney. Forcing her to participate in legal proceedings without the assistance of an attorney will aggravate her illnesses and is detrimental to her health.

If you have any further questions, you may contact me at the above address or phone number during my regular office hours.

Sincerely,

BIBI DAS, MD
